ABSTRACT

This bibliography lists curriculum guides in art education published since 1970 in the United States and in the Canadian provinces. All state directors of art were invited through a newsletter announcement to send copies of their guides for inclusion in the listing. Many of the guides are now in the Library of the National Art Education Association. The guide is divided into five sections: kindergarten or grade one through grade twelve; elementary; middle or junior high school; secondary; and miscellaneous or unclassified. Each section includes a listing of the guides in alphabetical order by state and city. The place to purchase each guide is listed with the general information about that guide. (Author/RM)

# INTRODUCTION

The second edition of Curriculum Guides in Art Education is a compilation of guides published since 1970 in our 50 states and Canadian Provinces. A call went out (via the NAEA newsletter) to those communities which had published new guides since our first edition was printed. All state directors of art were invited to send in their guides as well.

Single copies of a large number of these guides are now in the library of the National Art Education Association, and will be useful to visitors throughout the coming years. It is hoped that libraries around the country will use this excellent reference to order copies of numerous guides for use by college faculty, researchers, art educators, classroom teachers, and future teachers. Communities planning to write a new guide will find it a valuable reference in developing their own materials as will future art teachers who can compare different approaches to the teaching of art at all grade levels. And best of all, members of each community whose guides are listed can gain a sense of support for art education in the sharing of their expertise with colleagues all over the country.

The guide is divided into five sections:

1. Kindergarten or Grade One through Grade Twelve
2. Elementary
3. Middle or Junior High School
4. Secondary
5. Miscellaneous or Unclassified

Each section includes a listing of the guides in alphabetical order by state and city. The first section, "Kindergarten or Grade One through Grade Twelve," is

self-explanatory. The "Elementary" section may include kindergarten through eighth grade in some cases. "Middle or Junior High School" may include the fifth through the ninth grades, and the "Secondary" section may include seventh through twelfth grades. The "Miscellaneous or Unclassified" section includes guides and related resource materials which did not indicate that they were designed for specific grade levels.

None of this material is available through the NAEA Office. The place to purchase each guide is listed with the general information about that guide. Write directly to the communities involved as they are the only available source.

It is hoped that this listing will be of assistance to art educators and others throughout the country and that it will provide a valuable reference in continuing the development of quality school art programs.

Special thanks for the gathering of the materials for this guide should go to the four vice-presidents of NAEA during the time it was published: Dr. Marion Jefferson (Southeastern), Jaylene Armstrong (Western), James Poor (Pacific) and Dr. Pearl Greenberg (Eastern), who initiated the idea of a second edition of the curriculum guide; and to Elaine Gordon, Administrative Assistant to Dr. John Mahlmann, at the national office in Reston, who did all of the final organization and presentation of this material.

# KINDERGARTEN OR GRADE ONE THROUGH GRADE TWELVE

This section includes guides for complete programs from kindergarten or grade one through the twelfth grade. Guides are listed in alphabetical order by state and city.
